

Fonda Speedway & Utica-Rome Speedway Tire Bulletin

Due to the ongoing tire shortage prompted by shortages of both natural resources and labor, there will be an adjustment to the tire rule for both Fonda Speedway and Utica-Rome Speedway for the Modified, Crate 602 Sportsman and Limited Sportsman divisions starting this weekend: July 9-10.

Right-Rear: American Racer 48 compound or harder (*any track stamp*)

Left-Rear: American Racer 44 compound or harder (*any track stamp*)

Front Tires: American Racer 33 or harder (*any track stamp*)

After extended conversations with American Racer and distributor Lias Tire, it has become clear that this change would need to be made or both facilities would need to close for an extended period.

Keep in mind: inventory levels are **extremely low**. Please be respectful of both the speedway and Andy's Speed Shop. Everyone is doing their best during this difficult time.

The 44/48 tire rule will allow for a greater pool of used tires for teams competing at both facilities.
