

Pro Stock Amendment to Rear Suspension: Fonda Speedway & Utica-Rome Speedway

This amendment goes into effect July 16, 2022 at Fonda Speedway and July 22, 2022 at Utica-Rome Speedway.

Rule 20.5.4/C

- Coil spring front lower link mounts on the left side must have a maximum of 4" of vertical adjustment measured from the bottom of the frame rail. Lower differential link mounts must have a maximum of 3 ¾" of vertical adjustment on the left side from the bottom center of the rear end tube.
- Ride height may not exceed 8" (with a tolerance of 0.5") measuring from the ground to the bottom of the frame on the left rear.
- There will be a maximum of 46" spoiler height measuring from the ground.
- There will be no type of chain limiter permitted on the left front.
